-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 1, 2, 6, 7, 10, 11, 13, 14 objected to because of the following informalities: these claims contain the phrase "clear hitting area" or the phrase "an open look". These phrases could be given a variety of meanings. What is considered clear and what is considered open? Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by McCrink Jr. (6,050,902).

Regarding claims 1, 4, 6, 7, 9, 10, 13, and 14, McCrink discloses a sight line (any of the lines that go through apertures 31 and 32 as shown on fig. 1), the middle grid area is what is considered as a foot placement grid, the lines that go vertically through apertures 31 and 32 as shown on top area of Fig. 1 are considered as a first set of space apart ball position lines, the second set of space apart ball position lines are shown as going vertically through apertures 32C as shown on the bottom area of Fig. 1 and the area between the two sets of ball position lines is considered as a clear hitting area or as having an open look since nothing protrudes out of the mat.

Art Unit: 3711

Regarding claims 2, 3 and 11, any numbers of the parallel line segments above the center of the device could be considered as a first set and any of the parallel line segments below the center of the device could be considered as a second set. Any of the lines between these sets meets the recitation of claims 3 and 12.

Regarding claim 5, see Fig. 1.

Regarding claim 8, the lines that make the grid could be considered as individual segments. The lines towards edge of the device close to the edge of the device could be considered as a third and fourth set.
